About The Conference

The 60th Anniversary of the International Association of University Presidents (IAUP), in conjunction with the Semi-Annual Meeting, will be held in Seoul, South Korea. Hosted by Seoul Cyber University, this distinguished gathering will bring together university leaders from around the world to explore the future of higher education in the AI era. Through visionary keynote speeches, thought-provoking discussions, global networking opportunities, and immersive cultural experiences, this event aims to foster innovation and collaboration across borders. We are honored to cordially invite university presidents, academic leaders, and partners from around the globe to join us in this momentous occasion to celebrate IAUP's legacy and shape the next era of global higher education.
